

Post - Operative Instructions

Expected pain and management

- During the procedure local anaesthetic was injected which should numb the operative site for 6-8 hours after you procedure.
- Once the local anaesthetic wears off you may begin to feel some discomfort for which you should take;
 - Panadol / Panadeine 2 tablets every 4-6 hours for the first 24 hours and continuing as required.
 - Anti-inflammatory e.g. Neurofen can be used in addition to panadol/panadiene if required.
- For larger procedures you may be discharged with stronger pain relief such as panadiene forte/endone. These medications should be taken according to instruction given by the prescribing doctor and pharmacist.
- Elevation of the operative site is important and will assist with post-operative pain management.
- If your pain is not controlled with the above measure contact WPRS for advice

Wound Care

- Please keep your dressings and/or plaster dry.
- Please do not remove your dressing and/or plaster unless you have been informed to do so.
- If your plaster or dressing falls off, do not be concerned as it will not harm the operative site. You should contact WPRS during office hours for advice regarding the dressing.
- If any bleeding occurs upon discharge, please elevate and apply pressure to the site for 10 minutes and then reassess, if bleeding continues then repeat elevation and pressure for another 10 minutes. Contact WPRS if the bleeding does not cease following these measures.
- At 7-10 days after the operation you will have a wound check with the nurse at WPRS who will advise you on further dressings and wound care.

Activity

- Avoid any strenuous activity after your procedure for 1 week.
- Your surgeon will let you know when you can return to your normal activities and work.

Driving is not safe with a plaster. Your surgeon will inform you once it is safe to return to driving.

If you have any concerns please contact **WPRS** on (03) 5562 5330.

- In hours your call will be answered by a nurse and managed as appropriate.
- After hours you may leave a message or your call will be diverted to the on call Plastic Surgeon.

In the unlikely event you are unable to contact anyone at WPRS then call **St John of God hospital** on (03) 5564 0600.
