

POST - OPERATIVE INSTRUCTIONS

Pain Management

- During the procedure local anaesthetic is injected into the operative site, which should numb the area for 6-12 hours after your procedure.
- Upon discharge you may begin to feel some discomfort for which you may take:
 - Panadol/Panadeine/Panadeine Forte, 2 tablets every 6 hours regularly for the first 48-72 hours.
 - Anti-inflammatory e.g. Nurofen can be used in addition if required.
- If your pain is not controlled with the above measures, contact WPRS for advice.

Wound Care

- Please avoid any direct pressure to your reconstructed nipple for 2 weeks.
- Leave your dressing intact until your review. You can shower normally over the dressing and pat it dry. If your dressing falls off, please contact WPRS for advice.
- After your dressing is removed (10 days post-surgery) you will be required to wear a nipple shield over the reconstructed nipple for 6 weeks. Please purchase these and bring with you at your review appointment.
- Swelling and bruising is normal after your operation. However, if you develop sudden swelling or bruising on one side please contact WPRS.
- Small amounts of ooze from your wound is normal. Please consult WPRS if you are concerned by the amount or type of discharge.

Activity

- Please rest for 2-3 days after the operation.
- You may return to driving once you feel safe and comfortable.
- After the first week post operatively you may return to normal activities as tolerated by your body.
- Avoid any strenuous activity (e.g. heavy lifting) after your procedure for 4-6 weeks depending on your comfort and wound healing.
- You may return to sport and other strenuous exercise after 2 weeks.

Follow-up

- Day 10 post discharge you will have a post-operative wound check with the WPRS nurse who will advise you on further wound care appointments and future scar management.

If you have any concerns please contact WPRS on (03) 5562 5330.

- Within clinic hours your call will be transferred to clinical nurse and managed appropriately.
- After hours you may leave a message or your call will be diverted to the on-call Plastic Surgeon.
